Dalam assessment dengan Methodology Year 2026, GICS Sector Materials dan ESG Score Industry CHM Chemicals, Avian meraih **S&P Global ESG Score 56 dari 100 dan menempati 87th percentile di industrinya, berada di atas rata-rata skor industri sebesar 33.**

Pencapaian ini menjadi milestone penting bagi Avian karena 2026 merupakan pertama kalinya perusahaan menjalani proses assessment dengan penyampaian data dan dokumen secara lebih komprehensif kepada S&P Global. Proses tersebut menjadi momentum untuk memperkuat kualitas data, dokumentasi, evidence, serta disclosure atas berbagai praktik sustainability yang telah diterapkan perusahaan.

Hasil assessment menunjukkan bahwa Avian memiliki kinerja yang kuat pada sejumlah aspek sustainability, khususnya yang berkaitan dengan etika bisnis, keselamatan dan kesehatan kerja, pengelolaan produk, serta materiality. Capaian tersebut memperlihatkan bahwa penerapan ESG di Avian telah berkembang menjadi bagian yang semakin terintegrasi dalam pengelolaan perusahaan.

Sustainability Manager PT Avia Avian Tbk, Dodik Moerdijanto, mengatakan bahwa assessment S&P Global tidak semata-mata dipandang sebagai pencapaian angka, tetapi sebagai benchmark eksternal untuk mengukur kematangan sistem sustainability perusahaan.

“Bagi kami, assessment S&P Global bukan hanya mengenai pencapaian skor. Yang lebih penting adalah bagaimana seluruh praktik sustainability dapat didukung oleh data, evidence, governance, dan disclosure yang kuat. Hasil 2026 ini menjadi baseline penting bagi kami untuk melihat posisi perusahaan sekaligus menentukan area improvement ke depan,” ujar Dodik.

Avian Brands Reaches the 87th Percentile in the 2026 S&P Global ESG Assessment

Surabaya, October 02, 2026 — PT Avia Avian Tbk (Avian Brands) marked another important milestone in its sustainability journey through its performance in the 2026 S&P Global Corporate Sustainability Assessment (CSA). Under the 2026 Methodology Year, within the GICS Materials Sector and the CHM Chemicals ESG Score Industry, Avian Brands achieved an **S&P Global ESG Score of 56 out of 100 and ranked in the 87th percentile of its industry, exceeding the industry average score of 33.**

This achievement marks an important milestone for Avian Brands, as 2026 was the first year the Company participated in the assessment with a more comprehensive submission of data and supporting documentation to S&P Global. The process provided valuable momentum to further strengthen the quality of the Company’s ESG data, documentation, supporting evidence, and disclosures related to its sustainability practices.

The assessment results demonstrate Avian Brands’ strong performance across several sustainability areas, particularly business ethics, occupational health and safety, product stewardship, and materiality. These results reflect the continued development of ESG practices within Avian Brands and their increasing integration into the Company’s overall management approach.

Dodik Moerdijanto, Sustainability Manager of PT Avia Avian Tbk, stated that the S&P Global assessment is viewed not merely as a numerical achievement, but as an external benchmark for evaluating the maturity of the Company’s sustainability management system.

“For us, the S&P Global assessment is not solely about achieving a certain score. More importantly, it is about ensuring that our sustainability practices are supported by robust data, evidence, governance, and disclosure. The 2026 results are important baseline for understanding our current position and identifying areas for improvement,” said Dodik.

Menurut Dodik, proses assessment juga memperkuat kolaborasi lintas fungsi di dalam perusahaan. Berbagai data dan dokumen yang dibutuhkan dalam assessment berasal dari sejumlah fungsi, sehingga sustainability berperan dalam mengorkestrasi informasi tersebut menjadi satu kesatuan yang dapat menggambarkan kinerja ESG perusahaan secara menyeluruh.

“Sustainability tidak dapat dibangun oleh satu fungsi saja. Dibutuhkan kolaborasi berbagai departemen dan, yang paling utama, komitmen Top Management untuk memastikan sustainability menjadi bagian dari proses bisnis dan pengambilan keputusan perusahaan,” tambahnya.

Dengan capaian 87th percentile dalam S&P Global CSA 2026, Avian memiliki benchmark eksternal yang dapat menjadi dasar untuk mempertahankan kinerja yang telah kuat sekaligus mengidentifikasi ruang perbaikan ke depan.

Bagi Avian, hasil assessment tersebut bukan menjadi tujuan akhir, melainkan baseline baru untuk terus meningkatkan kualitas pengelolaan sustainability, transparansi, dan penciptaan nilai jangka panjang bagi para pemangku kepentingan.
