

Avian Brands Resmi Menerbitkan *Climate Risk Report* Perdana Berbasis IFRS S2

Surabaya, 8 Juni 2026 - Avian Brands resmi menerbitkan ***Climate Risk Report*** pertama perusahaan pada 16 Maret 2026 bersamaan dengan publikasi *Sustainability Report 2025*. Langkah ini menjadi wujud komitmen perusahaan dalam memperkuat transparansi, tata kelola keberlanjutan, serta kesiapan menghadapi risiko dan peluang perubahan iklim.

Laporan ini disusun mengacu pada standar internasional IFRS S2 terkait *Climate-related Disclosures* yang diterbitkan oleh *International Sustainability Standards Board (ISSB)*. Melalui laporan tersebut, Avian Brands mulai mengintegrasikan identifikasi risiko iklim, analisis dampak bisnis, strategi mitigasi, serta pengelolaan transisi iklim ke dalam proses bisnis dan tata kelola perusahaan.

Climate Risk Report perdana ini memuat berbagai aspek penting, mulai dari *climate governance*, identifikasi risiko fisik dan transisi, manajemen risiko iklim, hingga peluang bisnis dari pengembangan produk dan operasional yang lebih berkelanjutan.

Direktur Operasional dan Pengembangan Avian Brands, Robert Christian Tanoko, menyampaikan bahwa laporan ini merupakan langkah awal perusahaan dalam membangun sistem pelaporan iklim yang transparan, terukur, dan terintegrasi dengan strategi bisnis.

Penerbitan laporan ini semakin mempertegas posisi Avian Brands sebagai perusahaan nasional yang aktif mengadopsi praktik *sustainability disclosure* berbasis standar internasional serta mendukung transisi menuju ekonomi rendah karbon di Indonesia.

Avian Brands Officially Publishes Its Inaugural Climate Risk Report Based on IFRS S2

Surabaya, June 8, 2026 - Avian Brands has officially published its inaugural Climate Risk Report on March 16, 2026, alongside the publication of its Sustainability Report 2025. This publication represents a strategic step to strengthen transparency, sustainability governance, and corporate readiness for climate change-related risks and opportunities.

The report was prepared with reference to the international IFRS S2 Climate-related Disclosures standard issued by the International Sustainability Standards Board (ISSB). Through this report, Avian Brands has begun integrating climate risk identification, business impact analysis, mitigation strategies, and climate transition management into its business processes and corporate governance.

This inaugural Climate Risk Report covers key aspects including climate governance, the identification of physical and transition risks, climate risk management, and business opportunities arising from the development of more sustainable products and operations.

Robert Christian Tanoko, Director of Operations and Development of Avian Brands, stated that the report represents an initial step in building a climate reporting system that is transparent, measurable, and integrated with the company's business strategy.

The publication further solidifies Avian Brands' position as one of the country's leading companies to actively adopt sustainability disclosure practices aligned with international standards, in support of the agenda for Indonesia's transition to a low-carbon economy.
